Integrated APIs with Axios, managed state with Redux, and ensured bug-free releases through testing with Jest and React Testing Library.</li></ul>	

## PROJECTS

### E-Commerce Application | React js

- Designed a user-friendly interface with React js, featuring intuitive navigation and responsive design to enhance product discovery and ease of purchase.

### Bank Management System | Spring Boot

- Developed a full-featured Bank Management System to simulate real-world banking operations. The system allows users to create accounts, deposit and withdraw funds, check balances, transfer money, and manage customer information securely.
